

MUHAMMAD IMRAN BIN HAIROL RIZAL

JUNIOR FULL-STACK DEVELOPER | JAVASCRIPT | PHP | MYSQL | SQL

Puchong, Selangor | 012-331-7648 | imranhrizal@gmail.com

PROFESSIONAL SUMMARY

Computer Science (Web Technology) graduate with hands-on experience in full-stack web development and production application support. Independently developed a full-stack web application using JavaScript, PHP and MySQL, covering frontend, backend and database functionality. During a developer internship in a banking software environment, resolved approximately 40 application tickets involving debugging, enhancements and software testing.

TECHNICAL SKILLS

Languages: Java, JavaScript, PHP, C, C++, SQL, Oracle PL/SQL
Frontend: React, HTML5, CSS3, responsive web fundamentals, JSON, Node.js, React Router, Axios
Backend & APIs: Spring Boot, REST API, Spring Data JPA, Spring Security, JWT, PHP
Databases: MySQL, Oracle Database, SQL queries, PL/SQL stored procedures
Oracle Development: Oracle Forms, Forms Builder, Oracle Reports
Tools: Git, GitHub, Visual Studio Code, XAMPP, IntelliJ IDEA, basic Linux
Additional Exposure: Google Cloud fundamentals, networking, Flutter, C#/.NET (basic), AI prompting, Claude

WORK EXPERIENCE

INFOPRO SDN. BHD. — Developer Intern

2025 – 2026 | Application Development & Production System Support

- Completed approximately **1.5 months of technical and development tools training** before progressing to hands-on **production application development and support**.
- Resolved approximately **40 application tickets within about 3 months**, ranging from simple fixes to more complex issues involving navigation controls, calculations, reporting alignment and application functionality.
- Handled assigned tickets through the development lifecycle, including **issue replication, investigation, code fixes or enhancements, unit testing, deployment for QA testing and QA support**.
- Developed and modified application functionality using **Oracle Forms, Forms Builder and PL/SQL stored procedures**, including business logic, data validation, processing and database updates.
- Prepared **Impact Analysis (IA) and Unit Testing (UT) documentation** and conducted user briefings and training for newly implemented functions and enhancements.
- Participated in an application version migration involving recompilation, compatibility testing and resolution of unsupported syntax issues.

Inventory Manager — Full-Stack Web Application

Java 17 | Spring Boot | React | React Router | Node.js | Axios | MySQL | REST API | Spring Security (JWT) | Spring Data JPA

- Developed a full-stack inventory management application using React for the frontend and Java Spring Boot for backend services.
- Implemented REST API integration using Axios and client-side navigation using React Router.
- Implemented JWT-based authentication and secured application access using Spring Security.
- Used Spring Data JPA for backend data persistence and database operations.
- Developed product CRUD operations, search, category filtering and sorting.
- Implemented audit logging to track product changes and a stock quantity chart to visualise inventory levels.

FINAL YEAR PROJECT

Workshop Management System — Individual Final Year Project

PHP | JavaScript | HTML | CSS | MySQL | JSON

- Independently designed and developed a **full-stack** web-based workshop management system featuring online booking, vehicle service history, digital receipts and automated notifications.
- Built the frontend using HTML, CSS and JavaScript and backend functionality using PHP and MySQL, with JSON used for structured data exchange.

- Designed and implemented **two main user modules for customers and mechanics**, with database-driven functionality for customer records, vehicle information, bookings and service management
- Led the project end-to-end independently, from system design and database implementation to development, testing, debugging and troubleshooting.
- Implemented with role- based security to enable proper screen segregation between users' role.

EDUCATION

UNIVERSITI TUN HUSSEIN ONN MALAYSIA (UTHM)

Bachelor of Computer Science (Web Technology) with Honours | 2022 – 2026 | CGPA: 3.00

Relevant coursework: Java Programming, C Programming, JavaScript, Web Development, HTML & CSS, Computer Networking, Computer Architecture, Internet of Things (IoT)

COLLEGE MATRICULATION NEGERI PERAK (KMPK)

Science Physical – Module 2 | 2021 – 2022 | CGPA: 3.00 | MUET: Band 4

CERTIFICATIONS & PROFESSIONAL COURSES

• Google Cloud Computing — 2024: Cloud Computing Fundamentals; Infrastructure in Google Cloud

• Cisco – Introduction to Networking — 2024

• Google – AI Prompting: Stay Ahead of the AI Curve — 2025

LEADERSHIP & ACTIVITIES

• Chairman of Co-Curriculum — Coordinated approximately 40 members and organized community and club activities.

• Treasurer of Co-Curriculum — Managed funds and financial collections for club activities.

• Volunteer – CSR Pulau Tinggi — Participated in community service and educational activities.

LANGUAGES

English | Malay
